

Camping Equipment Security Requirements

Tents and Camping Accessories

It is a condition precedent to the liability of the Company that: -

1. The property housing the insured items when left unattended, unoccupied or occupied overnight must have all doors, windows and other openings left closed, properly fastened and be securely locked with keys removed. Any alarms must be maintained in good order and put into effective operation. Windows in occupied bedrooms may be left open for ventilation.
2. The property housing the insured items must have locks approved to British Standard BS3621 or a five lever mortise deadlock on all entrance doors, and locks on all accessible windows - including skylights and fanlights.
3. Insured items when left unattended in or attached to any motor vehicle or in transit must be locked in an enclosed boot that is not accessible by removing any partition or breakage of a window.
4. Insured items in transit must be carefully protected to prevent damage.
5. Equipment in premises or areas open to the public and not being used or supervised must be kept in a separate and secure area not accessible by anyone other than the insured, and secured by a five lever lock to British Standard BS3621.
6. The building housing the insured items must be built substantially of brick, stone or concrete with slate, tile or concrete roof.
